INTENSIVE WORKSHOP VIDEOMAPPING NARRATING STRUCTURES 10

DESCRIPTION

'Narrating Structures' is an intensive workshop where we introduce projection mapping. We will look at diverse techniques for the production of audiovisual projects in architectural spaces and objects and also its application in artistic and creative practice.

PROGRAMME

The 2 day workshop is divided in 6 sections.

1st Session >> Saturday 16th of January 2016 From 12.00 until 19:30pm

- 1- Introduction to the mentor and presentation of their work in this field.
- 2- Study of multiple videomapping projects.
(half an hour break at 15.30 until 16:00h)
- 3- Learning multiple techniques and applying them using the different spaces and structures.

2nd Session >> Sunday 17th of January From 12.00 until 19:30pm

- 1- Projection mapping on different surfaces.
- 2- Presentation by Reuben Sutherland focussing on methods and tips for visual content production.
(half an hour break at 15.30 until 16:00h)
- 3- Creation and presentation of a specific group project.

At the end of this workshop you will be able to:

- Create various projections simultaneously
- Shape light into objects and spaces
- Project management and networking with local and international communities.

This workshop is for artists, graphic designers, architects and anybody interested.
